

## 2nd Grade: Mrs. Watkins and Mrs. Thomas

January 29, 2021

**\*What a GREAT week!** We started off NLSW with our chapel message pointing to the Bible as our source for answers, and reminding us of God's great love for us all! WAY TO GO 2nd Graders!!

\*The rest of the week was filled with fun dress up days and activities to remind us that we are Sent to Serve!

\*Next week has a few tricks up its sleeve as well! :)

### Religion

We are continuing to study Jesus' amazing miracles, from feeding the large crowds to healing a sick boy and a blind man.

### Reading/Language

Next week our stories will be about signs. Start noticing road signs and other signs around as you go through your day. We will focus on the 'ar' sound in words, paying attention to punctuation when we read aloud, and discuss point of view in writing. We will complete a story map to help us create our own stories! In Language our focus will be using commas in dates and places.

### Science

We will continue our lessons about the Earth, focusing specifically on the different bodies of water and how they help and impact our environment.

### Spelling

car, dark, arm, star, park, yard, party, hard, farm, start, part, spark

### Memory Work

The second half of the second article: **The third day he rose again from the dead. He ascended into heaven and sits at the right hand of God, the Father Almighty. From thence He will come to judge the living and the dead.**

### Math

We will start the week with an assessment. Next, we will work with the greater/less than signs, as well as a fun activity with fractions as part of a set. We will end the week with expanded form notation.

### Social Studies

We are taking a break from our textbook to start Black History Month with our Diversity Unit. We will begin with the brave story of Ruby Bridges. Then students will complete a fun project.

### Spanish

Los alumnos (the students) brought home their Spanish packets and BINGO boards to study for the test on Monday!

### Teacher Tip!

Our Christian Character trait for Second Grade is Compassion. Compassion and empathy are valuable life skills that should be taught, as well as modeled, in the home. The kids have been learning about ways compassion can be shown in many situations here at school. Ask them some things they've learned! How can they show compassion at home?
