

2nd Grade: Mrs. Watkins and Mrs. Thomas

May 7, 2021

***WOW! We are overwhelmed by your kindness and words of appreciation this week!** We are so fortunate to be able spend our days doing what we love with kids and families and like you! Thank you!

***WAY TO GO!!** Our school brought in and donated over 800 birthday items for the Oasis Food Pantry last week! Thank you to all who took part as a family and shared with those in need!

***The countdown is on to Colonial Day!** Please let us know if you are able to donate supplies, or are in need of an outfit for the day. :)

***Please take a look at the Teacher Tip** for information about a fun opportunity to visit the Third Grade Wax Museum!

Religion

We are talking about the story of Peter being rescued by new friends. We are still working hard on our Compassion Essays as well.

Reading/Language

We had fun reading the traditional tales this week, especially Stone Soup. We read several versions, and were introduced to the stage version that we will perform, record, and send to you the last week of school. Mark your calendar! Next week we will wrap up the stories in our anthology with stories of historical figures. We will make comparisons of the past and present. In language we will finish with a review of adjectives, adverbs, and root words.

Science

Next week we will move on to our 2nd habitat, the forest! We are excited about creating a pop-up book to show what we have learned!

Spelling

**seated, keeps, speed, seen,
means, clean, groan, roast,
bowls, crow, owe, grown**

Memory Work

**Go into all the world and preach
the good news to all creation.
(Mark 16:15)**

Math

We are still working on our x3's and x4's. If you see that your child is struggling, please try to work on flash cards at home if possible. We will also keep working with graphing on a coordinate plane and finding area.

Spanish

We will play Spanish BINGO on Monday and take our last UNIT TEST on Thursday. Students will be bringing their packets home to study on Monday after Loteria.

Social Studies

Stay tuned for the end of our Social Studies unit and a test. We will end the year with a little dip into the branches of the government.

Teacher Tip!

The third graders will be presenting their Wax Museum in the Commons on Wednesday, May 19th. Our class has been invited to view their presentations for approximately 10 minutes. Presenters will be stationed 6 feet apart, and visitors will stand 6 feet away. Everyone will be wearing their masks with the exception of the 1 - 2 minute speeches from the third graders. They will pull their masks down for their short speech. If you do not wish for your child to attend, please let us know via email. Thank you.
