

Mrs. Koenig

April 1, 2022

How can it be April already? This year is flying by! The children have learned so many things, but we still have many more to learn in order to be ready for 2nd grade! Please be sure that your child continues to get at least 10 hours of sleep each night and eats a good breakfast in the morning!

Religion

We are taking a look at the events of Holy Week. On Palm Sunday Jesus rode into Jerusalem amidst the shouts of praise from the people! On Maundy Thursday He gave us a special way to remember Him in the Lord's Supper. As Jesus washed the disciples' feet, He showed us that we should serve one another. He loves and remembers us even when we forget Him as the disciples did in the Garden of Gethsemane.

Memory Work

The assignment for next week is your child's speaking part for our chapel service. The parts were sent home on Wednesday.

Math

We took a look at the heads and tails side of a nickel and practiced counting nickels and pennies to determine how much money we have. We also worked on subtracting a number from 10. $10-7=3$. Be sure to work on memorizing all of the facts that we've done by practicing with the flashcards.

Reading

In Lesson 23 we will be using the /oo/ **vowel digraph** as in *moon* to sound out words. We will also look for a **vccv pattern** in a **two-syllable word** and divide the word into syllables between the two consonants - **rab bit**. The **test** for Lesson 23 will be on **Friday**.

Spanish

Tienes hambre? (Are you hungry?) This week we added the following words to our vocabulary - **el apio** - celery, **el limon** - lime, **las fresas** - strawberries, **las uvas** - grapes, and **el aguacate** - the avocado.

Social Studies

We practiced reading a diagram and discussed some of our countries' holidays and heroes.

Grammar

Adjectives are describing words. This week we looked at adjectives that tell how many - one, five, seven, etc.

continued...

Honesty

In today's folder is a paper on honesty. Please help your child complete this paper and return it on or before Friday, April 22nd. We've talked a lot about honesty in class and have been sharing examples that we see in the classroom. The completed paper will become a part of your child's Character Trait Profolio. This is a special binder which the children receive when they graduate from 8th grade. Thank you for your help!

Science

Help your child find objects around your house that are transparent, translucent, and opaque.

Pizza Hut

Congratulations to Gregory, Eleanor, David, Alyson, and Alex who completed their 10 books for the month of March! This was the last month of the Pizza Hut program. It was great seeing all of the good reading!

Have a great weekend! Remember to worship our loving Savior during this season of Lent!
