

Mrs. Koenig

April 22, 2022

As the weather gets warmer and plants begin to grow, the children seem to have summer on their minds. It is becoming harder for the children to listen to and follow directions. You can help at home by giving directions once and assigning a consequence if they are not followed! Let's finish out the school year strong!

Chapel

The children have been working very hard on their parts for our chapel service which will be presented on Monday. Please continue to review your child's speaking part over the weekend. The service will be live-streamed at 8:40 on Monday morning on Messiah's youtube channel. If you can't watch on Monday morning it will be available for viewing later.

Memory Work

Next week's assignment is the first part of The Apostles' Creed. We will be saying this every day at school.

Grammar

Special names - proper nouns - begin with a capital letter. The special names of people, animals and places are proper nouns. Each part of a proper noun begins with a capital letter - Mrs. Smith, Dairy Queen, etc.

Science

We will be taking a look at the parts of plants and how each part helps the plant.

Honesty

If I have not received your child's completed form on honesty, I have included another one in today's folder. Please complete this and return it to school by Wednesday.

Reading

In Lesson 25 we will sound out words with /ou/ and /ow/ as in **round** and **brown**; /oi/ and /oy/ as in **boil** and **boy**; and /au/ and /aw/ as in **haul** and **draw**. We will continue to look at contractions and synonyms. The **test** for Lesson 25 will be on **Friday, April 29th**.

Math

We have learned several mental math strategies this year to help us with the addition and subtraction facts - doubles, doubles plus one, adding ten to a number, adding nine to a number, etc. There are some "odd ball facts" that just need to be memorized. We took a look at four of those facts this week - 5+3, 6+3, 7+4, 7+5. Be sure to work with the flashcards for these facts at home. We added **cone** and **sphere** to our list of 3-D shapes.

Spanish

Mealtimes and when you are at the grocery store would be good times to review the names of foods and the food groups in Spanish.

Social Studies

In Unit 4 we will learn about schools, communities, and transportation now and long ago.
