

Mrs. Koenig

May 6, 2022

Happy Mother's Day! I pray that you have a wonderful weekend and day. Looks like the weather will be beautiful. Make family worship a part of your celebration!

Religion

Jesus calls us and fills us with His Spirit. The Holy Spirit gives us a living faith and helps us bring other people to know Jesus.

Memory Work

Next week's assignment is the first three sections of The Apostles' Creed.

Math

We used the **centimeter** side of our ruler to measure and draw line segments. We added **cylinder** and **cube** to our list of 3-D shapes. When you subtract two numbers that are next to each other on the number line, the difference (answer) is 1.

Example: $9-8=1$.

Grammar

The names of the days of the week, months of the year, and holidays are proper nouns and begin with a capital letter. When talking about myself, I use the word "I" in the naming part of the sentence and "me" in the telling part of the sentence.

Reading

In Lesson 27 we will learn that if a word ends in the letter "y," we change the "y" to an "i" before adding "er" or "est" - happier, happiest. When a word ends with a consonant and an "le," the consonant "let is a syllable - can **dle**. The **test** for Lesson 27 will be on **Friday**,

Science

The **stem** of a plant delivers the water and minerals from the roots to the leaves and then delivers the food which the leaves make to the other parts of the plant. We used some stalks of celery to prove this. The stem also holds the plant up.

Social Studies

This week we looked at how families, homes, and tools we use have changed over time.

Spanish

We learned some table manners that people in Spanish speaking countries use.
