

## Mrs. Bohn's Classroom

April 17, 2021

It sounds like the preschoolers all had wonderful Spring Breaks, as did I, but it felt so good to be back in the classroom. I am so thankful for this time with your child and I am so blessed to know them! This week was an absolute blast as we learned about plants and worms. God has created such a beautiful world for us to enjoy and I encourage you to enjoy the natural world as a family. Jump in puddles, dig for worms, and enjoy the sunshine! Nature offers so many wonderful opportunities for learning!

### Jesus Time

This week, we focused on Jesus appearing to two disciples on the road to Emmaus. The disciples had not yet heard the good news of Jesus' resurrection yet and were sad that Jesus had died. God kept the disciples from recognizing Jesus as he traveled with them and Jesus explained God's plan to them. Jesus shared a meal with the two disciples and as soon as they recognized him, he disappeared! The disciples were filled with amazement and ran to tell everyone that Jesus was alive! The preschoolers loved sharing the good news too with their classmates and with anyone they came across at Messiah. We rejoice because Jesus lives and God keeps his promises!

Next week, we will learn about Jesus returning to heaven and talk about how heaven is a wonderful place.

### Project Theme

This week was all about plants! First, we learned how to tell the difference between living and nonliving things. We were scientists as we walked around campus to look for living things and, of course, we took a detour to pick dandelions and to roll down the "big mountain." Next, we identified the parts of a plant and what plants need to grow! Did you know that plants do not eat Chick-a-fila? The preschoolers enjoyed looking at the roots, stem, and leaves of a bamboo plant, snake plant, and even helped plant a potato! We examined seeds and planted our own bean seeds that will be observing. The highlights of the week included tasting different plants and investigating worms. I was impressed by how the preschoolers all tried spinach, carrots, broccoli, celery, strawberries, and pineapple! On Friday, we went crazy for worms and learned about how they help plants grow. We really enjoyed touching and holding them too!

Next week, we will learn all about insects! Insects are one of my favorite things to teach and I am looking forward to a bzzzzz-y week of fun and learning!

### Important Dates

Looking Ahead:

- April 14, Book Orders are due
- May 24th - last day of preschool

## Reminders

- Thank you for bringing your child to the restroom before heading to school in the morning. This is incredibly helpful! Thank you!
- Please continue to send a jacket to school as we go outside with weather permitting.
- **The weather is warming up so if able, please send a filled water bottle to school with your child. We will keep the bottle at cubbies for east access after outdoor time. Thank you!**

## Overheard in the Classroom

“Mrs. Bohn, I do LOVE flowers! They don’t make me throw up!”

Me: “Worms have little hairs on them that help them pull through the soil.”

Student: “Little hairs?!?! Like grown up boys (points to arm). My dad is sooooo hairy!”

“I just love spinach.....like my green smoothies! I just love all these things!”

A student handing me flowers, “You look like you are going to get married!”

Me: “Who will I marry?”

Student gestures to a friend

Friend: “I am NOT marrying HER. I am going to marry my daddy.”

“I am digging a swimming pool with all these workers. You guys can do some swimming when I am done.”

“Hey, girl” with a wink

Thank you for entrusting your child to us. School is a partnership between parents and teachers so please contact me with any questions, concerns, or even a funny story! I love to hear from you!

Sunday Worship Times:  
9:00am and 10:30am CST

At Messiah Lutheran School we live to  
discover and share the love of Jesus Christ  
through a quality Christian education.
